DIRECTION FOR USE: Apply Sealing Fluid with a small soft (12 mm) brush to cover newly applied Bird Repellent. 500mL of Sealing Fluid will treat approximately 10 Bird Repellent (280g) cartridges. Pour out only small amounts at a time and use up on job. Do not pour surplus back into fresh liquid. Keep the can firmly closed when not in use to prevent evaporation of the solvent. When using **DO NOT SMOKE**. Never use near naked flames, hot pipes or live electrical equipment. Sealing Fluid can act as a paint remover; care must be taken near freshly painted surfaces. Do not apply to gilded surfaces. Clean brush with a solvent, eg. white spirit.

NOTE TO DOCTOR: For further information contact the National Poisons Information Service in the UK.

FOR USE BY RENTOKIL SERVICE STAFF ONLY: NOT FOR SALE
